

Renovation Manual

 **AlkorPlan** 2000[®]

The Perfect Skin for Your Pool.

a Passion for Progress[®]

The ultimate protection with the perfect finish.

Alkorplan 2000®'s quick and easy installation method on any type of surface, and its ability to adapt to all shapes, make it the best system for renovating old or damaged pools.

The exclusive properties of **Alkorplan 2000®** provide the very highest level of security and protection for swimming pools.

The intelligent choice for lining your pool.

Alkorplan 2000® is a calendared membrane, consisting of two flexible layers of polyvinyl chloride interleaved with a reinforcing polyester mesh.

The **Alkorplan 2000®** membrane is the best solution to leakage problems in your pool. **Alkorplan 2000®** offers resistance, flexibility, strength and longevity.

Alkorplan 2000® can reduce the construction costs of the shell of your pool thanks to its waterproofing and decorative properties which can be applied to even the most basic structures.

The **Alkorplan 2000®** membrane avoids the common problems and costly maintenance caused by other systems such as soldering or painting.

With **Alkorplan 2000®**, the only maintenance necessary is cleaning.

Where to use AlkorPlan 2000®

The use of **Alkorplan 2000**® guarantees that your pool is waterproof, whatever its shape, size or structure. **Alkorplan 2000**® can be used over any type of support, from steel sheeting and steel decking to wood, ceramic or polyethylene etc.
